Thought Leadership Forum #46

## Leading Projects in Complexity

Get involved!

7<sup>th</sup> – 8<sup>th</sup> February 2020, Sydney, Australia

The **GAPPS** will be holding its next **Thought Leadership Forum** on **7<sup>th</sup> and 8<sup>th</sup> February** in Sydney, Australia, hosted by The University of Sydney.

This event will focus on

- Rethinking projects - Developing a framework for 'Getting Stuff Done'
- Leadership of projects in complexity and
- Comparisons of project related standards

This is a unique opportunity to network with like-minded professionals working in project, programme, and portfolio management. Learn about latest developments and thinking in the field, share knowledge, collaborate while thinking afresh about what competencies are really needed to 'Get Stuff Done'. Review a draft framework for leadership of projects in complexity and contribute ideas on how this can be used practice. Gain insights and practical takeaways that you can start applying straight away in your projects and organisations.

## **Workstreams**

### **Project Leadership in Complexity**

The GAPPS has been working in partnership with ICCPM, the International Centre for Complex Project Management, to develop a framework of competencies required to lead projects and programs in complex environments. This is your opportunity to learn what has been done to date and provide input on how this framework might be used in practice

### **Getting Stuff Done**

When GAPPS looked at reviewing its Project Manager Standards, they decided it was time to completely re-think the competencies required to Get Stuff Done in workplaces where pressures and expectations are considerably different from those in which the current standards for project management were developed. Throw out old ideas and join a vibrant discussion about the competencies required to Get Stuff Done today.

### **PPPM Standards – Update & Mapping**

Standards for PPPM are evolving. Learn what is happening in PPPM standards development and contribute to the GAPPS comparative mapping of global standards and qualifications.

### **About GAPPS**

Everything developed by the GAPPS is open source and available free to the wider project community.

The Global Alliance for the Project ProfessionS (GAPPS) is a volunteer-driven, non-profit organisation that has been working with practitioners throughout the world since 2003 to develop competency frameworks for project managers, program managers, project sponsors and project controls and provide a basis for comparison of project related standards and qualifications.
